

Jitendra Biswas

MERN Stack Developer Intern | Full Stack Web Development

Jitendrabiswas12344@gmail.com | 9819999854 | linkedin.com/in/jitendra-biswas-603206361 | github.com/jitendra-biswas | jitendrabiswas.com.np

PROFESSIONAL SUMMARY

Bachelor of Computer Applications (BCA) student (5th Semester) with hands-on experience building full stack web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Skilled in Frontend Development with React.js, Tailwind CSS, and GSAP animations, and Backend Development with REST API design using Node.js and Express.js. Proven ability to build, deploy, and document responsive, production-ready projects independently. Strong interest in Full Stack Web Development and AI-powered applications, currently expanding skills in Next.js, TypeScript, and API integration for AI-driven features. Seeking a MERN Stack Developer Internship to contribute technical skills to real-world projects and grow as a Full Stack Developer.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, GSAP, Responsive Web Design

Backend Development: Node.js, Express.js, REST API Development, API Integration

Database: MongoDB, Mongoose

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Render

Currently Learning: Next.js, TypeScript, AI Integration in Web Applications

PROJECTS

K72 UI Clone | React.js, Tailwind CSS, GSAP

- Built a pixel-perfect, fully responsive clone of the K72 agency website replicating complex UI/UX interactions.
- Developed dynamic, reusable React.js components styled with Tailwind CSS for scalable, maintainable frontend architecture.
- Implemented smooth scrolling, modern GSAP-based animations, and seamless page transitions to enhance user experience.
- Optimized layout responsiveness across devices, focusing on performance and clean, production-quality UI.

URL Shortener – Full Stack MERN Application | MongoDB, Express.js, React.js, Node.js

- Engineered a full stack URL shortening application using the MERN Stack, enabling users to convert long URLs into unique short links.
- Designed and developed RESTful APIs with Express.js and Node.js to handle URL creation, redirection, and data retrieval.
- Modeled and stored URL data in MongoDB using Mongoose for efficient schema design and querying.
- Deployed the React.js frontend on Vercel and the Node.js/Express.js backend on Render, ensuring a fully functional live application.
- Tested and validated REST API endpoints using Postman prior to deployment to ensure reliability.

LinkHub | React.js, Tailwind CSS

- Built a web application for organizing and managing multiple important links within a single centralized dashboard.
- Designed a responsive, user-friendly interface using React.js and Tailwind CSS for consistent cross-device usability.
- Developed reusable, modular React components to streamline UI development and improve maintainability.
- Implemented clean state management for adding, editing, and organizing links efficiently.

EDUCATION

Bachelor of Computer Applications (BCA)

Everest College, Thapathali — Currently in 5th Semester
